EXPERIENCE

Full Stack Developer
- Built, deployed, and maintained multiple full-stack web applications using technologies such as React, Next.js, Firebase, and Tailwind CSS.
- Designed and implemented user-focused frontends and scalable backend systems, handling both client-side and server-side logic.
- Gained strong command over authentication, real-time databases, and API integration through personal and collaborative projects.
- Applied modern UI/UX principles and accessibility best practices to ensure high-quality user experiences across devices.

Founder of CodeWing
- Founded and built **CodeWing**, a web platform that gives iOS users early access to TestFlight beta apps and invitation codes.
- Scaled the platform to **30,000+ monthly visits** and **3,700+ monthly active users** organically, without paid marketing.
- Implemented advanced **SEO strategies** to boost organic discovery and search visibility.
- Designed a smooth and responsive **UI/UX** for cross-device compatibility and optimal user engagement.
- Continuously managing platform updates, performance optimizations, and feature rollouts based on user behavior and analytics.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, SQL, HTML, and CSS
Libraries / Frameworks: Node.js, React.js, Tailwind CSS
Developer Tools: VS Code, IntelliJ IDEA, Git
Other: Firebase, MongoDB, Data Structures & Algorithms (DSA), DBMS, OOPs Concepts, Web Development, GitHub

PROJECTS

CodeWing – Beta Apps Platform | Next.js • React • Firebase • Tailwind CSS • SEO Optimization
A platform that gives Apple users early access to beta apps.
- Scaled to 30,000+ monthly views and 3,700+ active users through organic growth.
- Integrated Google AdSense and Amazon Affiliates for monetization.
- Designed mobile-friendly UI with optimized SEO to maximize discoverability.
- Managed ongoing updates, analytics, and user feedback-driven improvements.

SoulTalk – Anonymous Confession Platform | Next.js • React • Firebase • CSS Modules
A real-time social platform for anonymous posting and interaction.
- Built a fully dynamic, secure confession system with upvotes, comments, and moderation.
- Integrated Firebase real-time database for seamless data updates and interactions.
- Ensured smooth UX with content sharing, moderation rules, and fast loading on all devices.

Infinite Tic-Tac-Toe | React • JavaScript • Tailwind CSS • Framer Motion
A twist on traditional Tic-Tac-Toe with a 3-move strategy rule and dynamic AI.
- Designed a rotating-move system to prevent ties and promote strategic play.
- Developed AI logic for single-player mode and implemented real-time score tracking.
- Integrated engaging animations and responsive game UI for a polished experience.

MoodyMovie – Mood-Based Movie Recommender | Next.js • TMDB API • Tailwind CSS
A dynamic web app suggesting movies based on user moods.
- Integrated TMDB API to display live movie data with genre and mood filters.
- Built a sleek, responsive UI with real-time mood-based content switching.

EDUCATION

Mangalmay Group of Institutions, Greater Noida, 2023 - 26
Bachelor of Computer Applications (BCA)

Jain Modern Public Schools, 2023
Intermediate (PCM)
